NEW PRODUCT for 2012

UMT The leading Davit Manufacturer whose world headquarters are based in Ft Lauderdale Florida are announcing 3 NEW products for the coming season. UMT is International is recognized for both innovative products and customer service

NEW BOARDING STAIRS

The new carbon fiber boarding stairs provide the latest development in design technology and styling. Available with 19" (48cm) or 24" (61cm) width steps with custom widths also available upon request are available from 2- 10 step configurations.

The UMT Stairs also offer a choice of tread surfaces for the steps which include Teak, Black or White Starboard and also Black, White and Gray Non Skid . The Motif of the Yacht can also be included in the Step for that additional touch.

The UMT carbon fiber stairs offer elegance reliability and strength but are very light weighing only 45lb (21kgs) including the rails and are designed to fit existing hull mounting brackets. The stairs are also available in a custom bag for storage on board.
